

Key Performance Indicators	Year 7 Milestones - Art & Design
Generating Ideas	I can playfully engage in open-ended research, experimenting with drawing and design techniques to produce more expressive designs.
	I can select from the media I have used, based on which would be most appropriate for a design brief.
	I can independently select and use expressive characteristics of the visual elements when designing, for example tone, line, colour or texture.
	I can study artwork, then confidently analyse and select characteristics which can be used in my own ideas.
Making	I can confidently extend my practical skills by using a sketchbook, virtual tools and other means to develop personal ideas and playfully explore creative approaches.
	I can develop my use of the artistic elements (tone, texture, colour...) by adding further techniques, modifying scale, developing detail, the quality of finish or presentation.
	I can take a role or lead a group when organising activities and with attention to detail, avoiding mess and responsibly clearing away after practical activities.
	I can thoughtfully select materials and tools to support additional creative actions in response to artworks that have been selected in line with personal taste and judgement.
Evaluating	I can understand and explain how different types of art and design convey meaning.
	I can carefully evaluate my own work and others' work against success criteria to identify how improvements could be made.
	I can use subject appropriate language to express ideas.
Knowledge	I can understand that tools can be used in different ways to control how a particular media is applied and the effect it creates.
	I can explain how particular periods, genres, styles or aspects of design contain visual and expressive characteristics that convey meaning.
